received parent partner services

2017-2018 was a year of new innovative programming and implementation of Coordinated Intake and Referral services for families in Volusia and Flagler counties. Universal screening and intake allows us to connect families to services throughout our two county service area. We thank our partners, volunteers, providers, donors and funders! Most of all, we thank our amazing families who let us into their lives and participate in strengthening our services through their active participation and feedback. Together we connect people and resources to support the success of our families, our workforce, our providers and our community.

Thanks to our Funders!

Thanks to Our Providers!

Maria Long,
 LifeSong Liaison
